Higher Education:
An International Perspective
# Table of Contents

## Introduction
- Focus group of countries 3
- Structure of this report 5
- Sources of data 6
- The structure of higher education systems 7

## Chapter 1: Historical Background, Recent Trends, and Current Governance in Higher Education Systems
- Historical background
  - Evolution of the university in Europe 21
  - United States 23
  - Russia 24
  - Japan 25
- Recent trends in higher education systems
  - Massification 26
  - Diversification by institution type 29
  - Diversification by regionalization 35
  - Convergence 39
- Governance in higher education
  - Degree of institutional autonomy 42
  - Private institutions and privatization 44
- Summary 45

## Chapter 2: Student participation in higher education
- Trends in higher education participation 52
- Levels of participation in higher education 54
- Age transition characteristics 61
- Student entry and re-entry into higher education
  - Admission practices 71
  - Ease of access to higher education 74
- Composition of the higher education student population
  - The participation of female students 77
  - Foreign students 79
- Number of institutions and average institution size 83
- Summary 85

## Chapter 3: Resources and expenditures
- Financial resources and expenditures 91
- Allocation of financial resources and expenditures 100
- Human Resources 111
- Summary 116

## Chapter 4: Higher education outcomes
- Higher education program completion 122
- Higher education and labor market outcomes 135
- Adult literacy by level of educational attainment 140
- The intergenerational legacy of high educational attainment 144
Chapter 5: Research at higher education institutions

Background on the role of research in higher education institutions
Distribution of higher education research resources across countries
Summary
